

WELCOME TO THE WONDERFUL WORLD OF BUTTERFLIES!

We wish you memorable moments with our product! The Belightful mindset is about enlivening any outdoor space, bringing happiness to everyday life and helping wildlife. Belightful Butterfly Oasis offers a fun way of supporting butterflies and nature, as feeders are made with the environment in mind. Please read these instructions carefully and retain them for future use.

BELIGHTFUL BUTTERFLY OASIS - INSTRUCTIONS

1. Twist to remove the cap of the Butterfly Oasis.
2. Rinse the sponge thoroughly under running water and place it at the bottom part of the Oasis. This acts as a reservoir for the nectar. The hole in the sponge should be facing up.
3. Mix nectar powder with 150 ml/5 fl oz of water. You can speed up the absorption by using warm water.
4. When nectar has been mixed, pour it slowly into the hole in the centre of the sponge (with the sponge being inside the bottom part of the feeder).
5. Close the Oasis by attaching the bottom part into the cap part of the product. The sponge remains inside the Oasis.
6. Hang the Butterfly Oasis in a sheltered but sunny place, preferably at eye-line or a little higher to help spread the scent of the nectar, and also to prevent any household pets for scaring the potential butterflies away.
7. Wait and observe. Butterflies prefer fine and not too breezy weather. On sunny days, you will see the most activity at your Oasis. Be patient – beautiful butterflies are worth waiting for!

REFILL:

Refill with nectar as often as needed. During a very hot and sunny period, you might need to do this more frequently due to evaporation.

CLEANING & MAINTENANCE:

Hand wash the Oasis with warm water when needed. You can do this, for example, with every refill. The product is not dishwasher safe. Do not use any chemicals for cleaning, as they are not good for butterflies!

GENERAL INFO:

Once the food is mixed with water, keep it refrigerated and use within 3 days. We recommend using only Belightful Nectar, which is designed for this product. We will not take any responsibility for damaged products, when using other than Belightful Nectar.

Please note that butterflies might need some time to adjust to your new feeding set-up and it may take a while before butterflies find your Oasis. Also note that not every butterfly species visit human-made feeders. However, there are many of the common species which will do so.

You can use butterfly friendly flowers and plants in your outdoor spaces, in planters or in beds to improve the effect.

REGISTER YOUR OASIS:

By registering your Oasis, you will gain access to additional services, product prizes, and many special treats. With every Oasis comes an unique code for registering your product.

Scan the code from the leaflet with your mobile phone or go to <http://members.belightfuldesign.com> and allow your web camera to start. You can also type in the plain code. Follow the instructions.

Warnings:

NECTAR:

- Only for feeding butterflies.
- Suitable for wild butterflies and moths.
- Not for human or domestic pet consumption.
- Keep away from any pets & children. The nectar includes a great deal of sugar. If sugar is a harmful ingredient for you and you drink the nectar – seek medical advice immediately.

SPONGE:

- Do not use the sponge if it looks spoiled and dirty. Wash carefully or replace it with a new sponge.

OASIS (the feeder product):

- Ensure that the product is hung correctly and make sure to prevent personal injury or property damage.
- Do not hang the product anywhere near windows or other glass or easily breakable items.
- Ensure that the hanging cord is out of reach of children and domestic pets.
- Use sufficiently strong hanging cord. Secure the hanging cord well, to prevent it from becoming loose.
- Consider protecting the hanging cord, when hanging on a living tree or plant.
