Assembly

1. Assemble poles. Make sure ends are entirely inserted in joints.
2. Push ends of one pole into white pockets at opposite corners on base of tent.
Careful: do not over bend pole.
3. Clip hooks around pole.
Take care to maintain gentle curve in pole.
4. Repeat Steps 2-3 with second pole and black pockets.
5. Use tent pegs to stake tent to ground.
6. Tie ribbons around crossed poles on top of tent.
7. Tie ground cloth to loops at corners on base of tent.
8. A white loop (about halfway up of each side) is for guy ropes for support in wind.
9. A separate cover is provided to protect collecting light (**not included**) from mild rain.
