# nhbs monthly catalogue

new and forthcoming titles

January 2006

customer.services@nhbs.co.uk +44 (0)1803 865913

Welcome to the first Monthly Catalogue of 2006, the most comprehensive buyer's guide to new and forthcoming titles in natural history, conservation and the environment

January 2006 sees the return of our popular **Backlist Bargains**, a unique range of special offers where you can find over 1000 key science titles from more than 20 major scientific publishers. All these titles will be at substantially reduced prices - up to 40% off until 31st March.

We would also like to welcome our new Title Researcher & Cataloguer on board - Anneli Meeder, a librarian who has previously worked in small special libraries in Germany and Canada. She is responsible for finding and cataloguing all the great titles in this, and future, **Monthly Catalogues**. Please don't hesitate to get in touch directly if you have a question about subject range or books you have published (ameeder@nhbs.co.uk).

We are regularly contacted by authors and small publishers who would like to see their new books included in our **Monthly Catalogues** and on our **website** - we always love to hear from you, please keep these suggestions coming.

Discounts for libraries, organisations and large orders

Are you a librarian or responsible for book purchasing within your organisation, or are thinking of placing a large order? NHBS provides a specialised supply service for libraries, organisations and bulk purchasers - handling everything from researching hard to obtain titles to arranging documentation and shipment. We are usually able to offer competitive packages - please contact customer.services@nhbs.co.uk to discuss what we can offer.
