

nhbs monthly catalogue

new and forthcoming titles

Issue: 2006/02

February 2006

customer.services@nhbs.co.uk +44 (0)1803 865913

Welcome to February's Monthly Catalogue, the most comprehensive buyer's guide to new and forthcoming titles in natural history, conservation and the environment.

Each month we add hundreds of new titles from small and large publishers around the world to our online catalogue at www.nhbs.com. This Monthly Catalogue highlights our latest 400 titles that have been hand-picked for inclusion. The catalogue provides key bibliographic data plus convenient hyperlinks to more complete information and nhbs.com online shopping - an invaluable resource. Each month's catalogue is sent out as an HTML e-mail (a plain text version is available on request). As always, each title entry is the product of a human selection process - we choose the titles we offer for sale, rather than just taking an automatic feed from bibliographic sources.

NHBS at the London Book Fair

NHBS will be exhibiting at this year's **London Bookfair** (5th-7th March) on **Stand R550** in the STM Zone! If you're attending, why not drop by for a chat?

Our popular **Backlist Bargains** are still available, a unique range of special offers where you can find over 1000 key science titles from more than 20 major scientific publishers. All these titles will be at substantially reduced prices - up to 40% off until 31st March.

Discounts for libraries, organisations and large orders

Are you a librarian or responsible for book purchasing within your organisation, or are thinking of placing a large order? NHBS provides a specialised supply service for libraries, organisations and bulk purchasers - handling everything from researching hard to obtain titles to arranging documentation and shipment. We are usually able to offer competitive packages - please contact customer.services@nhbs.co.uk to discuss what we can offer.
