

# March 2021 Monthly Catalogue

Welcome to the March 2021 edition of the NHBS Monthly Catalogue, which lists all new titles added to our website in the last month.

There are some excellent books on birds, mammals, and fish in the pipeline. Lynx have announced the second edition of [Birds of the Indonesian Archipelago: Greater Sundas and Wallacea](#) for March while Houghton Mifflin Harcourt has released details for two North American bird books, both due August: [Bird Families of North America](#) and [Peterson Field Guide to North American Bird Nests](#). Mike Toms is writing [A Garden Bird's Year](#), due June from Harper Collins. Struik Nature have recently published another three quick ID guides: [Avian Architects: Quick ID Guide to Nests and Eggs of Southern African Birds](#), [Flying Mammals: Quick ID Guide to the Bats of Africa](#), and [Skullduggery: Quick ID Guide to Southern and East African Mammal Skulls](#). Lastly, John Beaufoy Publishing has announced [Reef Fishes of the Seychelles](#) for August.

As in February, we again have an excellent selection of entomology titles this month. The Royal Entomological Society has just published a new addition to the long-running [RES Handbooks](#) series with [RES Handbook, Volume 10, Part 16: Blow Flies \(Diptera: Calliphoridae, Polleniidae, Rhiniidae\)](#) while Princeton University Press has announced another addition to their [Monographs in Population Biology](#) series with [Social Butterflies](#), due August. We have stock of the Russian book [Dragonflies of Russia: Illustrated Photo Guide](#) from Fiton XXI, while Siri Scientific Press has announced [An Illustrated History of Butterflies of the Afrotropical Indian Ocean Islands: Madagascar, Comoros, Seychelles, Reunion, Mauritius, Rodrigues and Socotra](#) for May. Two good reads on insects coming from Bloomsbury Publishing are [Much Ado About Mothing: A Year Intoxicated by Britain's Rare and Remarkable Moths](#), due May, and the paperback of [His Imperial Majesty: A Natural History of the Purple Emperor](#), due June.

There is a range of academic subjects for which we have one or two interesting titles. On the subject of botany, there is a new [BSBI Handbook](#) on hawkweeds, [Monograph of British and Irish Hieracium Section Foliosa and Section Prenantheoidea](#). On the topic of ecology, Cambridge University Press will publish [Animal Population Ecology: An Analytical Approach](#) in April. Two upcoming palaeontology titles are [A Guide to Fossil Collecting on the East Dorset Coast](#), due May from Siri Scientific Press, and the paperback of [The Story of the Dinosaurs in 25 Discoveries: Amazing Fossils and the People Who Found Them](#), due August from Columbia University Press.

Conservation biologists are well served this month with [A Trillion Trees: How We Can Reforest Our World](#), due August from Granta, [Pangolins: Scales of Injustice](#), due April from Penguin Random House South Africa, [Killing, Capture, Trade and Ape Conservation](#), due April from Cambridge University Press, and the paperback of [Lost Animals: Extinction and the Photographic Record](#) due August from Bloomsbury Publishing. On the related topic of environmental issues, there is the paperback of [Net Zero: How We Stop Causing Climate Change](#), due August from Harper Collins.

To see out this month's selection we have a nice roundup of biographies and other good reads. Harper Collins has just published the autobiography of palaeontologist Richard Fortey, [A Curious Boy: The Making of a Scientist](#), while Sphere Books will publish a rerelease of Sir Peter Scott's 1967 memoir Happy the Man, now titled [A Life In Nature](#), in May. Three paperback rereleases are [A Dominant Character: The Radical Science and Restless Politics of J. B. S. Haldane](#), due July from Atlantic Books, Peter Wohlleben's [Walks in the Wild: A Guide through the Forest](#), due May from Rider Books, and [A Slow Passion: Snails, My Garden and Me](#), due this month from Bloomsbury Publishing.

As always, if you are looking for a particular title that we do not yet have in our range, or you would like to suggest a title for NHBS to stock, please do get in touch. In the meantime, stay safe and keep well.

## Environmental & Social Studies

### Net Zero

How We Stop Causing Climate Change

Dieter Helm(Author)

The inconvenient truth is that we are causing the climate crisis with our carbon-intensive lifestyles and that fixing – or even just slowing – it will affect all of us. But it can be done. In Net Zero, economist Dieter Helm addresses the...
