

March 2022 Monthly Catalogue

Welcome to the March 2022 edition of the NHBS Monthly Catalogue, which lists all new titles added to our website in the last month.

There are a number of good ornithology titles coming. Helm is releasing the fifth edition of [Where to Watch Birds in Wales](#) in August while Laurence King has announced [Around the World in 80 Birds](#) for June. More specialist titles are the 2022 edition of [Birds of Portugal: An Annotated Checklist](#), published privately by the author, [The Faroe Islands' European Storm Petrel](#), published by Forlagid í Støplum, and the French monograph [Le Pic à Dos Blanc: Monographie \[The White-Backed Woodpecker Complex: Monograph\]](#), published by the Société d'Etudes Ornithologiques de France.

We also have one or two titles for each of the other vertebrate groups. On the subject of mammals, Springer is publishing [Terrestrial Cetartiodactyla](#), part of their [Handbook of the Mammals of Europe](#) series, in July. For herpetologists, we have [Field Guide to Snakes of the Middle East](#), due July from Bloomsbury, and [Reptiles of the Lesser Antilles](#), due May from Edition Chimaira. On the subject of fish and other marine life, Wiley-Blackwell has just published [Life in the Open Ocean: The Biology of Pelagic Species](#).

There are some outstanding books on insects lined up. Belknap Press will publish [The Guests of Ants: How Myrmecophiles Interact with Their Hosts](#) in July, while John Beaufoy Publishing will release [An Identification Guide to Garden Insects of Britain and North-West Europe](#) in May. We have stock of the second edition of the [Identification Guide to Ireland's Bumblebees](#) from the National Biodiversity Data Centre and will soon have stock of [Lycaenidae Part 5 \(Guide to the Butterflies of the Palearctic Region\): Tribe Polymmatini, Genera Chilades, Lachides, Rueckbeilia, Patricius, Pamiria, Freyeria, Alpherakya, Glabroculus, Arianna](#), published by Omnes Artes.

We similarly have some great botany titles. In August, Macmillan will publish [Wild Flowers of Britain and Ireland](#) and Princeton University Press will publish [The World Atlas of Trees and Forests: Exploring Earth's Forest Ecosystems](#). Filbert Press has announced the paperback of [How to Make a Wildflower Meadow: Tried-and-Tested Techniques for New Garden Landscapes](#) for May while [Wild Flower Flowcharts: Species ID the Easy Way](#) will be published this month by the author. Koeltz has relaunched the 2-volume set [Flowers of Greece](#) in hardback. Previously published by Diatheo this has been unavailable for some time. Lastly, the BSBI has announced a new handbook for April: [Alchemilla: Lady's-Mantles of Britain and Ireland](#).

We have a large number of conservation-related titles, notably the [Crayfish Conservation Manual](#) from Rostra Publications that we are distributing. Notable titles due April are [Ever Green: Saving Big Forests to Save the Planet](#) from W.W. Norton and [Life on the Rocks: Building a Future for Coral Reefs](#) from Riverhead Books. In May, Hodder & Stoughton will publish Peter Marren's [After They're Gone: Extinctions Past, Present and Future](#), while in July we can look out for [Conservation of Marine Birds](#) from Academic Press and [Nowhere Left to Go: How Climate Change Is Driving Species to the Ends of the Earth](#) from The Experiment. Three titles to be reprinted in paperback are Sir David Attenborough's [Living Planet: The Web of Life on Earth](#), due April from HarperCollins; [Eating to Extinction: The World's Rarest Foods and Why We Need to Save Them](#), due May from Vintage; and [The Longest Story: How Humans Have Loved, Hated and Misunderstood Other Species](#), due July from OneWorld Publications. HarperOne recently published [A Wild Idea: The True Story of Douglas Tompkins – The Greatest Conservationist \(You've Never Heard of\)](#).

Finally, three miscellaneous titles are [Crossbill Guide: Ireland](#), due April from KNNV, and the paperbacks of [Deeper Into the Wood](#), due June from Duckworth Overlook, [The Sea Is Not Made of Water: Life Between the Tides](#), due June from HarperCollins, and [Flights of Fancy: Defying Gravity by Design & Evolution](#), due September from Apollo.

As always, if you are looking for a particular title that we do not yet have in our range, or you would like to suggest a title for NHBS to stock, please do get in touch. In the meantime, a happy new year from all of us at NHBS, stay safe and keep well.
