

nhbs monthly catalogue

new and forthcoming titles

Issue: 2005/04

April 2005

customer.services@nhbs.co.uk +44 (0)1803 865913

Welcome to the April NHBS **Monthly Catalogue**, the ultimate buyer's guide to new and forthcoming titles in natural history, conservation and the environment.

Among the great titles recently available are **James and Other Apes**, **The Rise of Placental Mammals**, **The Dragonflies of Sussex**, **Leeches, Lice and Lampreys** and **California's Wild Gardens**. May will see publication of **Walker's Carnivores of the World**, **The Biology of Gila Monsters and Bearded Lizards**, **Field Guide to the Butterflies of South Africa** and **Life in Ancient Ice**. Coming in June - the mouth-watering **Orchids of the British Isles**.

There is a fantastic selection of birding books lined up for the rest of the year. In June the long-awaited **All the Birds of Brazil**, the New Volume of Handbook to Birds of the World **Cuckoo-Shrikes to Thrushes** - plus **Volumes 1-10** on special offer. In September, **Birds New to Britain** and **Raptors of the World** in October, closely followed by **Birds of Prey of the Indian Sub-continent** in November. For birders wishing to take advantage of the latest technology, July sees the launch of the electronic title **RSPB Birds of Britain and Ireland** - the first computer-based guide to work on PDA's!

Our **Spring Catalogue 2005** will be online in early May! After 20 years of producing our trademark newspaper-style paper catalogues each April and October, the time has come to move on and put all of the title information we provide to customers online.

Taking our Spring Catalogue online doesn't mean going on automatic! Each title entry on nhbs.com is the product of a human selection process - we choose the titles we offer for sale, rather than just taking an automatic feed from bibliographic sources. Of course, we'll still be taking orders over the phone (+44 (0)1803 865913 and by email to customer.services@nhbs.co.uk
