

# May 2022 Monthly Catalogue

Welcome to the May 2022 edition of the NHBS Monthly Catalogue, which lists all new titles added to our website in the last month.

We are very pleased to announce the upcoming third edition of the bestselling [Collins Bird Guide: The Most Complete Guide to the Birds of Britain and Europe](#), due September from HarperCollins. Other notable bird guides include two titles from Bloomsbury, [RSPB Pocket Guide to British Birds](#), due July, and [Australian Bird Guide: Concise Edition](#), due October; [Baby Bird Identification: A North American Guide](#), due October from Comstock; and [Rare Birds of Hampshire](#), just published by the Hampshire Ornithological Society. [A Quest for Waders](#) is a nice memoir already available from Wader Quest Publishing.

Three excellent three mammals titles are [Small Carnivores: Evolution, Ecology, Behaviour and Conservation](#), due July from John Wiley, [Bats: Their Biology and Behaviour](#), due May from the London Natural History Museum, and [The Badgers of Wytham Woods: A Model for Behaviour, Ecology, and Evolution](#), due June from Oxford University Press. For other fauna groups, we have the second edition of [A Naturalist's Guide to the Snakes of Australia](#), due June from John Beaufoy; [Shark: Why We Need to Save the World's Most Misunderstood Predator](#), due July from HarperCollins; and [Butterflies of Cyprus: A Field Guide and Distribution Atlas](#), due August from CAB.

We furthermore have a nice mix of botany and mycology titles. Two plant field guides are Clive Stace's [Concise Flora of the British Isles](#), due at the end of May, and [Tree-Spotting: A Simple Guide to Britain's Trees](#) from Wellbeck Publishing Group, due in August. A good read is [The Lost Rainforests of Britain](#), due October from HarperCollins, while librarians will want to take note of [The Robert Brown Handbook: A Guide to the Life and Work of Robert Brown \(1773-1859\)](#), [Scottish Botanist](#), just released by Koeltz Botanical Books. If you are interested in fungi there are two large identification guides: [Synopsis Fungorum, Volume 45: Poroid Fungi of Africa](#) from Fungiflora, available now, and [European Boletes, Volume 1](#) from Fungi Press, due October. A good read here is the paperback of [The Secret Life of Fungi: Discoveries from a Hidden World](#), due September from Elliott & Thompson.

There is a large number of titles on wildlife conservation and other environmental issues. Several of these deal with direct human impacts on wildlife: the paperback of [We Are All Whalers: The Plight of Whales and Our Responsibility](#) is due September from the University of Chicago Press, [A Clouded Leopard in the Middle of the Road: New Thinking about Roads, People, and Wildlife](#) is due this month from Comstock, [Bushmeat: Culture, Economy and Conservation in Central Africa](#) is due October from C. Hurst & Co. Publishers, and [Hunting Wildlife in the Tropics and Subtropics](#) is due August from Cambridge University Press. Slightly less heavy reading is provided by Derek Gow's [Birds, Beasts and Bedlam: Turning My Farm into an Ark for Lost Species](#), due June from Chelsea Green; [Peter Scott and the Birth of Modern Conservation](#), due October from Quiller Publishing; [The Hidden Universe: Adventures in Biodiversity](#), due July from Ebury Press; and [Birdgirl: A Young Environmentalist Looks to the Skies in Search of a Better Future](#), due June from Jonathan Cape. Two important books dealing with climate change are Greta Thunberg's [The Climate Book](#), due October from Allen Lane, and [Deep Adaptation: Navigating the Realities of Climate Chaos](#), recently published by Polity Press. Solutions are provided in [Land Healer: How Farming Can Save Britain's Countryside](#), published in June by BBC Books.

There are several excellent nature writing titles in the pipeline: Little Toller is publishing the paperback of [Landfill](#) in June, Bloomsbury is publishing [Swamp Songs: Journeys Through Marsh, Meadow and Other Wetlands](#) in July, and for those wanting to get into John Muir's body of work, the four-volume [John Muir Wilderness Collection](#), due September from Gibbs M. Smith Inc, is a good starting point.

A final smattering of miscellaneous titles includes [The Wonder of Africa's Natural History](#), due September from Whittles Publishing, and [Wildlife Photographer of the Year, Portfolio 32](#), due October from the London Natural History Museum, as well as the paperbacks of [Vanished Giants: The Lost World of the Ice Age](#), due July from the University of Chicago Press, and [How to Talk to a Science Denier: Conversations with Flat Earthers, Climate Deniers, and Others Who Defy Reason](#), due August from MIT Press.

As always, if you are looking for a particular title that we do not yet have in our range, or you would like to suggest a title for NHBS to stock, please do get in touch. In the meantime, stay safe and keep well.

## Marine & Freshwater Biology

### Rivers of Europe

Klement Tockner(Editor), Christiane Zarfl(Editor), Christopher T Robinson(Editor)  
Rivers of Europe, second edition, presents the latest update on the only primary source of complete and comparative baseline data on the biological and hydrological characteristics of more than 180 of the highest-profile rivers in Europe. With even...

942 pages | colour photos, illustrations, tables | Elsevier  
Paperback #257066 2021 9780081026120 £155.00

### The Rivers of Montenegro

Vladimir Pešić(Editor), Momir Paunović(Editor), Andrey G Kostianoy(Editor)  
This book reviews the current state of knowledge on, recent advances in, and future prospects of Montenegrin river basins in the context of anthropogenic activities. Edited by three respected experts in the field, The Rivers of Montenegro begins with...

301 pages | 82 colour & 9 b/w illustrations | Springer Nature  
Paperback #256923 2021 9783030557140 £279.99  
Hardback #253559 2020 9783030557119 £279.99

### The Remarkable Reefs of Cuba

Hopeful Stories from the Ocean Doctor  
David E Guggenheim(Author)  
Since 1970, the Caribbean has lost half of its coral reefs, an ominous and accelerating phenomenon that extends around the world. Today's remaining coral reefs – still a source of endless discovery and mystery for scientists – are at...

### River Health and Ecology in South Asia

Pollution, Restoration, and Conservation  
Bidhan Chandra Patra(Author), Pravat Kumar Shit(Author), Gouri Sankar Bhunia(Author), Manojit Bhattacharya(Author)  
This volume reviews recent hydrological and environmental issues resulting from human-induced water pollution practices while providing case studies on the physical, chemical, and eco-biological techniques used to mitigate the impacts of river...

420 pages | 107 colour & 11 b/w illustrations | Springer Nature  
Hardback #256940 2021 9783030835521 £119.99

### Shogakukan no Zukan neo Shinkai Seibutsu [NEO Deep Sea Biological Encyclopedia]

Fujiwara Yoshihiro(Author)  
Even in modern times, the deep sea world still has many mysteries. More than 530 species of deep-sea creatures are threatened or rare including deep sea-dwelling giant isopods, the goblin shark, the aquarium's popular giant isopod, and the...

183 pages | colour & b/w photos, colour illustrations; includes DVD | Shōgakukan  
Paperback #257002 2021 9784092172265 £49.99

### Shinkai: Kyokugen no Sekai Seimei to Chikyu no Nazo ni Semaru [Deep Sea: An Extreme World and the Mystery of Life on Earth]

Fujikura Katsunori(Author), Kimura Junichi(Author)  
Researchers of the Japan Agency for Marine-Earth Science and Technology (JAMSTEC) research one of the harshest environments on this planet: the deep sea. The sea, which occupies 70% of the surface area of the earth, is indispensable for...

288 pages | b/w photos, b/w illustrations | Kodansha  
Paperback #257014 2019 9784065160428 £32.99

### Shark

Why We Need to Save the World's Most Misunderstood Predator  
Paul de Gelder(Author)  
From shark attack survivor to the shark's biggest advocate, Paul de Gelder tells us just why these majestic diverse animals need our help as much as we need them. Something happens to you the first time you dive with sharks... We have a...

240 pages | 8 plates with colour photos | William Collins (HarperCollins imprint)

### Applied Ecology

How Agriculture, Forestry and Fisheries Shape Our Planet

Jan Frouz(Author), Jaroslava Frouzová(Author)

This book offers a comprehensive introduction to basic ecological and biological principles underlying modern agriculture, forestry, fisheries and aquaculture, and explains how these principles are used to increase the production of food and other...

414 pages | 88 colour & 66 b/w illustrations | Springer Nature

Hardback #256938 2021 9783030832247 £109.99

### Soil Grown Tall

The Epic Saga of Life from Earth

Gregory J Retallack(Author)

This book is designed as an easy night's read and introduction to fossil soils and the relatively new disciplines of palaeopedology and astropedology. It includes line art and colour illustrations to visualize the topic for the informed layperson...

275 pages | 32 colour & 70 b/w illustrations | Springer Nature

Hardback #256989 2022 9783030887384 £27.99

## Earth System Sciences

### Minerals & Gemstones of Southern Africa

Bruce Cairncross(Author)

Southern Africa has some of the most ancient rocks on Earth and is home to many spectacular and important minerals and gemstones. Minerals & Gemstones of Southern Africa documents the interesting and relevant mineral occurrences in South Africa,...
