

June 2017 Monthly Catalogue

Welcome to the June 2017 edition of the NHBS Monthly Catalogue, which lists all new titles added to our website in the last month.

Like last month, we again have a glut of bird books for you this month. Lynx just announced [Birds of New Guinea: Including Bismarck Archipelago and Bougainville](#) (May). Birdwatcher Steven Hermann published [Birding Northeast Ecuador](#) (following his guide to Northwest Ecuador), which you may have missed. John Beaufoy released details for three books, all due in August: [A Naturalist's Guide to the Birds of Singapore](#), [Photographic Field Guide to the Birds of Sri Lanka](#), and [The London Bird Atlas](#). More UK-focused book to mention are [Best Birdwatching Sites: Yorkshire, Birding in the Bristol Region - A Celebration](#) and [Birds of Caernarfonshire](#), all of which are available now.

We also have a number of interesting herpetology titles. Most notable is [The Amphibians & Reptiles of Scotland](#) which so far was not widely available. We now also stock the very hard to find 2nd edition of [The Reptiles and Amphibians of the Dutch Caribbean](#), and [Snakes of Jakarta and its Surroundings](#). Finally, John Beaufoy has announced [A Naturalist's Guide to the Snakes of India](#) for August.

For those interested in mammals, Whittet Books just published the 3rd edition of [Badgers](#) in the rebranded British Natural History Collection, and Struik published [Understanding Elephants: Guidelines for Safe and Enjoyable Elephant Viewing](#). Furthermore, we have stock of [The Orangutan's World](#), published by the Orangutan Foundation, and a [laminated fold-out guide to Colombian mammals](#).

Entomologists can look forward to a new [Naturalists' Handbook on leaf beetles](#) in August. We also received stock of [Phytophagous Beetles of Europe, Volume 1](#) (2nd edition), [Nymphalidae Part 1](#) (2nd edition), part of the Guide to the Butterflies of the Palearctic Region, and the photographic field guide [Dragonflies of Italy and England](#). Staying with invertebrates for a moment, we also stock [Recent Fasciariidae](#), published by ConchBooks, which deals with this group of sea snails.

For botanists, we have stock of the very practical [Guide to Collecting Herbarium Specimens in the Field](#), and a [fold-out guide to Mexican herbs and spices](#). Pelagic Publishing will publish [A Guide to Britain's Rarest Plants](#) in August, while the 2nd edition of the [Seasearch Guide to Seaweeds of Britain and Ireland](#) is due for June. Mycologist Geoffrey Kibby has just revealed plans for a 2-volume work: [Mushrooms and Toadstools of Britain & Europe](#), and volume 1 is available now.

Zooming out a bit, there are several books on habitats worth mentioning. Schweizerbart Science Publishers just released the very large reference work [Mires and Peatlands in Europe](#), and Oxford University Press has announced two new editions in their Biology of Habitats series. The 3rd edition of [The Biology of Lakes and Pond](#) (June) and the 2nd edition of [The Biology of Coral Reefs](#) (October). And if you have never been to this Oxfordshire parish, have a look at [Wild about Cholsey](#).

Finally, to round up with a miscellany, Cambridge University Press has announced [The Study of Behaviour: Organization, Methods, and Principles](#) (October). The paperback of [Not So Different: Finding Human Nature in Animals](#) is due November. And Oxford University Press will publish [Effective Conservation Science: Data Not Dogma](#) in October, which looks like it might be a rather provocative book.

As always, if you are looking for a particular title that we do not yet have in our range, or you would like to suggest a title for NHBS to stock, please do get in touch.

One Man and a Mule

Across England with a Pack Mule

Hugh Thomson (Author)

In the Middle Ages, mules were used to transport goods across Britain. Strong, sturdy and able to carry a good 160 lbs of weight, they made ideal walking companions (as long as you didn't ask them to do anything they disapproved of). Now Hugh...
