new and forthcoming titles

Issue: 2005/10

October 2005

customer.services@nhbs.co.uk +44 (0)1803 865913

Welcome to the October NHBS Monthly Catalogue, the ultimate buyer's guide to new and forthcoming titles in natural history, conservation and the environment.

Our huge **Autumn & Winter Catalogue** is now online! With over 3000 hand-picked titles from the full spectrum of natural history subjects, we have put together our usual mix of top-selling titles, the best forthcoming titles, and key texts from [www.nhbs.com](http://www.nhbs.com). NHBS Online Catalogues are designed to be printed! Simply download as a .pdf and print the subjects you require.

NHBS is proud to announce the **Wetland Restoration Manual**, the definitive work on wetland restoration, creation and management from the **Wildlife Trusts**. This 660-page, ring-bound manual contains all the information you will need to work effectively on wetland projects.

We add so many new books to [www.nhbs.com](http://www.nhbs.com) that we now produce this Monthly Catalogue in two sections. This allows us to send you the catalogue without encountering problems with spam filters - we will use this method in future as we continue to bring you the most complete possible range of titles in environment publishing.

Discounts for libraries, organisations and large orders Are you a librarian or responsible for book purchasing within your organisation, or are thinking of placing a large order? NHBS provides a specialised supply service for libraries, organisations and bulk purchasers - handling everything from researching hard to obtain titles to arranging documentation and shipment.

View this Monthly Catalogue as a web page or save/print it as a .pdf document.

We are usually able to offer competitive packages - please contact [customer.services@nhbs.co.uk](mailto:customer.services@nhbs.co.uk) to discuss what we can offer.
