

October 2021 Monthly Catalogue

Welcome to the October 2021 edition of the NHBS Monthly Catalogue, which lists all new titles added to our website in the last month.

We have several bird species monographs worth mentioning: Pelagic Publishing has announced

[The Wryneck: Biology, Behaviour, Conservation and Symbolism of *Jynx torquilla*](#) for February; a new monograph from Richard Sale, [The Eurasian Hobby](#), is due later this month; and Comstock will publish [Vultures of the World: Essential Ecology and Conservation](#) in March. Famed ornithologist Tim Birkhead is working on [Birds and Us: A 12,000 Year History, from Cave Art to Conservation](#), also due in March from Viking Books.

For entomologists we have stock of [The Orthoptera of Rutland](#), while John Beaufoy Publishing has announced the second edition of

[A Naturalist's Guide to the Butterflies of Australia](#) for February. Titles covering other invertebrates include the paperback release of [Biology and Evolution of the Mollusca, Volume 1](#) and [Volume 2](#), as well as

[Tropical Deep-Sea Benthos, Volume 32: Azooxanthellate Scleractinia \(Cnidaria, Anthozoa\) from New Caledonia](#), which has just been published by the Paris Muséum National d'Histoire Naturelle.

Three notable titles on wildlife conservation are [The Ferals that Ate Australia: Dangerous Predators and Ravenous Herbivores: The Story of Australia's Feral Nightmare](#),

recently published by ABC Books; [What Works in Conservation 2021](#), which is an annual publication; and the paperback of

[Restoring the Wild: Sixty Years of Rewilding Our Skies, Woods and Waterways](#), due March from HarperCollins. Other environmental issues are explored in the paperback of Naomi Klein's [How To Change Everything: The Young Human's Guide to Protecting the Planet and Each Other](#), due February from Penguin Books;

[The Environmentalist's Dilemma: Promise and Peril in an Age of Climate Crisis](#), due November from ECW Press; and Thor Hanson's

[Hurricane Lizards and Plastic Squid: How the Natural World is Adapting to Climate Change](#), due February from Icon Books.

Two notable ecology books are Oxford University Press's [Ecology of a Changed World](#), due January, and Springer's

[Earth, Our Living Planet: The Earth System and its Co-Evolution With Organisms](#). Palaeontology this month comes in the shape of the paperback of

[The Origin of Snakes: Morphology and the Fossil Record](#), while virology is represented by the second edition of [Understanding Coronavirus](#) from Cambridge University Press.

For those readers who are planning trips overseas, you might want to take a look at the

[Traveler's Pocket Field Guide to Wildlife of the Pantanal: Illustrated Checklist with Maps](#) or the third edition of [A Visitor's Guide to the Falkland Islands](#), both of which are in stock. But for those readers staying at home, we have several fascinating reads with [Mistteto Winter](#) by Roy Dennis, due October from Saraband;

[The White Birch: A Russian Reflection](#) from Corsair; [Slime: A Natural History](#), due November from Granta; and a biography,

[The Ocean's Whistleblower: The Remarkable Life and Work of Daniel Pauly](#), due November from Greystone Books.

As always, if you are looking for a particular title that we do not yet have in our range, or you would like to suggest a title for NHBS to stock, please do get in touch. In the meantime, stay safe and keep well.

Ending Hunger

The Quest to Feed the World Without Destroying It

Anthony Warner(Author)

Nutritionists tell you to eat more fish. Environmentalists tell you to eat less fish. Apparently they are both right. It's the same thing with almonds, or quinoa, or a hundred other foods. But is it really incumbent on us as individuals to...
