

Erratum note – June 2019

Due to a production error, the page numbers in the April 2019 issue of *British Wildlife* (*BW* 30.4) were incorrect. The numbers shown are a repeat of those from the February 2019 issue (*BW* 30.3) and thus the issue as printed runs as pp. 157–234, rather than pp. 235–312.

Overleaf you will find a revised contents page with the correct page numbers listed – this can be attached directly to the back cover of *BW* 30.4. The June 2019 issue (*BW* 30.5) continues from the corrected position, on p. 313, and any references to *BW* 30.4 in future articles will refer to the corrected page numbers, rather than to the ones that appeared in print.

We would like to offer our sincere apologies for this mistake, and for any confusion that it may have caused.

Attach contents page on reverse to the back cover of *BW* 30.4 (April 2019)
